

NEIGHBORHOOD COYOTE PROGRAM

May 2023

MONTHLY
REPORT

CITY OF ROSEMEAD

MONTH AT GLANCE

During the month of May, the Neighborhood Coyote Program continued to document reports and share relevant information to residents who reported coyote activity in their neighborhoods.

As coyotes are more active in the community there are a couple of things that you should NOT do in case you encounter one in your neighborhood. One of the main reactions you should not take is running away from the coyote because this can trigger their predator-hunting instinct. Instead, stand your ground and maintain eye contact. Coyotes should not be approached, they can be admired at a distance, and never intentionally leave any type of food source available to them, as that would encourage them to return. Coyotes can become defensive when they are with their pups, so its highly recommended to leave them alone. When hazing coyotes, make sure they have an escape route and dont let them feel trapped.

REPORT TOTALS

0 reports	LEVEL 1 Coyote heard and/or seen; Coyote resting in public space

NEIGHBORHOOD COYOTE PROGRAM

The Neighborhood Coyote Program serves as an avenue to address, educate, and report coyote interactions as well as safety issues caused by coyotes within the San Gabriel Valley. Through education and resourcing, we want to ensure the safety of residents and pets. The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety.

The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety. The Neighborhood Coyote Program provides the following services:
