Thank you for participating in today’s meeting. The Water Committee encourages public participation and invites you to share your views on agenda items.

MEETINGS: Regular Meetings of the Water Committee are held on the second Tuesday of each month at 10:00 AM at the Upper San Gabriel Valley Municipal Water District Offices (602 E. Huntington Drive, Suite B Monrovia, CA 91016). The agenda packet is available at the San Gabriel Valley Council of Government’s (SGVCOG) Office, 1000 South Fremont Avenue, Suite 10210, Alhambra, CA, and on the website, www.sgvcog.org. Copies are available via email upon request (sgv@sgvcog.org). Documents distributed to a majority of the Committee after the posting will be available for review in the SGVCOG office and on the SGVCOG website. Your attendance at this public meeting may result in the recording of your voice.

PUBLIC PARTICIPATION: Your participation is welcomed and invited at all Water Committee meetings. Time is reserved at each regular meeting for those who wish to address the Committee. SGVCOG requests that persons addressing the Committee refrain from making personal, slanderous, profane or disruptive remarks.

TO ADDRESS THE COMMITTEE: At a regular meeting, the public may comment on any matter within the jurisdiction of the SGVCOG during the public comment period at the beginning of the agenda, on any item(s) that is on the Consent Calendar prior to action taken on the Consent Calendar, and on any other agenda item prior to the time it is considered by the Committee. At a special meeting, the public may only comment on items that are on the agenda. Members of the public are requested to state their name prior to speaking, and comments are limited to a maximum of three minutes per person. The Committee Chair may impose additional time limits if comments become repetitious, an individual member of the public seeks to speak on numerous items, or a large number of members of the public seek to speak on an item. The Committee may not take action on items not on the agenda and is restricted in discussing items on the agenda.

AGENDA ITEMS: The Agenda contains the regular order of business of the Water Committee. Items on the Agenda have generally been reviewed and investigated by the staff in advance of the meeting so that the Committee can be fully informed about a matter before making its decision.

CONSENT CALENDAR: Items listed on the Consent Calendar are considered to be routine and will be acted upon by one motion. There will be no separate discussion on these items unless a Committee member so requests. In this event, the item will be removed from the Consent Calendar and considered after the Consent Calendar.
MEETING MODIFICATIONS DUE TO THE STATE AND LOCAL EMERGENCY RESULTING FROM THE THREAT OF COVID-19:

AB 361 (Rivas), signed by California Governor Gavin Newsom on September 16, 2021, authorizes local agencies to hold public meetings via teleconferencing and allows for members of the public to observe and address the meeting telephonically or electronically to promote social distancing due to the state and local emergency resulting from the threat of the Novel Coronavirus (COVID-19).

To follow the new provisions in AB 361 and ensure the safety of Committee Members and staff for the purpose of limiting the risk of COVID-19, in-person public participation at the Water Policy Committee and Working Group meeting scheduled for June 14, 2022 will not be allowed. To allow for public participation, the Water Policy Committee and Working Group will conduct its meeting through Zoom Video Communications. To participate in the meeting, download Zoom on any phone or computer device and copy and paste the following link into your browser to access the live meeting: https://us06web.zoom.us/j/89388464599. You may also access the meeting via the livestream link on the front of the agenda page.

Instructions for Public Comments: For those wishing to make public comments on agenda and non-agenda items, but within the SGVCOG’s subject matter jurisdiction, you may submit written comments via email or provide a verbal comment by participating through Zoom.

- **Written Comments (Email):** If you wish to submit written public comments to be distributed to the committee members prior to or during the meeting, please submit these materials via email to Brianne Logasa at blogasa@sgvcog.org at least 1 hour prior to the scheduled meeting time. Please indicate in the Subject Line of the email “FOR PUBLIC COMMENT.” Emailed public comments will be read into the record and will be part of the recorded meeting minutes. Written public comments may include, but are not limited to letters, reports, and presentations. While there is no page or word count limit for written comments, the time for reading written public comments into the record will be limited to three minutes, which is the same time allotted for verbal comments.

- **Verbal Comments (Zoom):** Through Zoom, you may provide a verbal comment by using the web interface “Raise Hand” feature. Wait to be called upon by staff, and then you may provide verbal comments for up to 3 minutes. Public comment is taken at the beginning of the meeting for items not on the agenda. Public comment is also accepted at the beginning of each agenda item.

Any member of the public requiring reasonable accommodation to participate in this meeting should Brianne Logasa at least 48 hours prior to the meeting at (626) 457-1800 or at blogasa@sgvcog.org.
PRELIMINARY BUSINESS

1. Call to Order
2. Roll Call
3. Public Comment (If necessary, the Chair may place reasonable time limits on all comments).
4. Changes to Agenda Order: Identify emergency items arising after agenda posting and requiring action prior to next regular meeting.

CONSENT CALENDAR (It is anticipated that the Water Committee may act on the following matters)

5. Water Policy Committee/TAC Meeting Minutes – 5/14/2022 (Page 4)
   Recommended Action: Approve
6. Adoption of Resolution 22-08-WC Enabling the Water Policy Committee to Continue Holding Meetings via Teleconferencing (Page 7)
   Recommended Action: Adopt Resolution 22-08-WC making specified findings that the existence of a local and state of emergency in California caused by the ongoing COVID-19 pandemic continues to directly impact the ability of the SGVCOG to hold public meetings safely in person thereby necessitating an ability to continue holding meetings via teleconferencing.

UPDATE ITEMS (It is anticipated that the Water Committee may act on the following matters)

7. Regional Phase I Municipal Separate Storm Sewer System (MS4) National Pollutant Discharge Elimination System (NPDES) Permit Implementation
8. Safe Clean Water Program (Page 9)
9. Federal and State Budget and Legislative Updates (Page 11)
10. Federal and State Funding Opportunities (Page 16)
11. Litigation (Page 17)
12. Water Supply Update
13. Water Working Group Chair Report

CHAIR’S REPORT

ANNOUNCEMENTS

ADJOURN
SGVCOG Joint Water Policy Committee/Working Group Meeting
Approved Minutes
Date: June 14, 2022
Time: 10:00 AM
Location: Zoom/YouTube teleconference meeting

PRELIMINARY BUSINESS
1. Call to Order: G. Crudgington called the meeting to order at 10:00 A.M.

2. Roll Call

**Water Policy Committee Members Present**
J. Stark; Claremont
G. Boyer; Glendora
G. Crudgington; Monrovia
M. Clark; Rosemead
D. Mahmud; South Pasadena

**Water Policy Committee Members Absent**
C. Goytia; TVMWD
J. Santana; USGVMWD

**Water Working Group Members Present**
S. Gallant; Covina
A. Sweet; Glendora
A. Tachiki; Monrovia
A. Tesfaye; South Pasadena
T. Love; USGVMWD
F. Villaluna; LA County Public Works
S. Green; LA County Sanitation Districts
L. Augino/K. Gardner; Watermaster

**Guests**
C. Griffin; Office of Assemblymember Rubio
R. Tahir; Member of the Public
D. Ready; Council for Watershed Health
D. Petschauer; City of Los Angeles - LASAN
Blair Crossman; San Gabriel and Lower Los Angeles RMC
B. Stracker; Member of the Public
B. Datti; Craftwater Engineering
B. Wardynski; Craftwater Engineering
T. Zampiello; Watermaster
J. Zepeda; Office of Assemblymember Rubio
M. Zou; City of Los Angeles - LASAN
P. Cortez; USGVMWD
R. Romero; Office of Assemblymember Fong
S. Armenta Lopez; Office of Senator Rubio
3. Public Comment
   R. Tahir shared that on May 27th, the Regional Board sent out a notice to all cities about a public hearing on the revision of the Dominguez Channel Toxic Pollutants TMDL.

4. Changes to Agenda Order
   No changes to agenda order.

CONSENT CALENDAR
5. Water Policy Committee/TAC Meeting Minutes – 5/10/2022
6. FY 2022-2023 SGVCOG Water Policy Committee Chair and Vice Chair Appointments
7. Adoption of Resolution 22-07-WC Enabling the Water Policy Committee and Water Technical Advisory Committee (TAC) to Continue Holding Meetings via Teleconferencing

   There was a motion to approve the Consent Calendar items.
   (M/S: J. Stark/G. Boyer)
   [MOTION PASSED]

   AYES: Claremont; Glendora; Monrovia; Rosemead; South Pasadena
   NOES: 
   ABSTAIN: 
   NO VOTE GIVEN: 
   ABSENT: TVMWD; USGVMWD

ACTION ITEMS
8. SB 991 (Newman) – Public Contracts: Progressive Design-Build: Local Agencies
   There was a motion to recommend the Governing Board support SB 991 (Newman).
   (M/S: D. Mahmud/G. Boyer)
   [MOTION PASSED]

   AYES: Claremont; Glendora; Monrovia; Rosemead; South Pasadena
   NOES: 
   ABSTAIN: 
   NO VOTE GIVEN: 
   ABSENT: TVMWD; USGVMWD

PRESENTATION
9. Main San Gabriel Basin Watermaster: Water Rights in the San Gabriel Valley – Tony Zampiello, Executive Officer, Main San Gabriel Basin Watermaster
   The majority of the San Gabriel Valley is located within the Main San Gabriel Groundwater Basin. Like many other Southern California water basins, the Main San
Gabriel Basin is adjudicated, meaning that, as a result of a dispute among water users in the Basin over legal rights to the water, water rights are allocated and administered pursuant to a Judgment of the Court. The Court determined who the water rights owners were, how much groundwater those owners could extract, and how the groundwater area would be managed. The Judgment requires the nine-member Main San Gabriel Basin Watermaster Board (Watermaster) to control pumping, purchase replacement water, and determine the Operational Safe Yield of the Basin, among other things. The Judgment gives Watermaster broad discretion in making Basin management decisions within its framework.

UPDATE ITEMS
10. Upper LA River and Rio Hondo Scientific Studies Updates – Brianna Datti, Craftwater Engineering, and Dawn Petschauer, Los Angeles City Sanitation & Environment
In the 2020-2021 fiscal year, the SGVCOG was awarded scientific study funding by the ULAR Watershed Area Steering Committee (WASC) and the Rio Hondo WASC through the Safe Clean Water Program to conduct two scientific studies: Pre-Stormwater Investment Plan (preSIP) and Load Reduction Strategy (LRS) to Address the Los Angeles River Bacteria Total Maximum Daily Load (TMDL). For the PreSIP, the study team is working on the final (working) Project map to help them with modeling and alternative compliance pathways development. For the LRS Study, there is an upcoming meeting with the Los Angeles Regional Water Board on June 30th, where the study team anticipates receiving comments on the LRS Adaptation Plan.

11. Safe Clean Water Program
This item was tabled to next month.

12. Federal and State Budget and Legislative Updates
This item was tabled to next month.

13. Litigation Updates
This item was tabled to next month.

14. Water Supply Update
This item was tabled to next month.

15. Water Working Group Chair Report
There were no updates on this item.

CHAIR’S REPORT
There was no report on this item.

ANNOUNCEMENTS

ADJOURN
G. Crudgington adjourned the meeting at 12:06 P.M.
DATE: July 12, 2021

TO: Water Policy Committee

FROM: Marisa Creter, Executive Director

RE: ADOPT RESOLUTION 22-08-WC MAKING SPECIFIED FINDINGS TO ENABLE THE WATER POLICY COMMITTEE AND TAC TO CONTINUE TO HOLD MEETINGS VIA TELECONFERENCING

RECOMMENDED ACTION

Adopt Resolution 22-08-WC making certain findings that the existence of a local and state of emergency in California caused by the ongoing COVID-19 pandemic continues to directly impact the ability of the SGVCOG to hold public meetings safely in person thereby necessitating an ability to continue holding meetings via teleconferencing.

BACKGROUND

Introduced by Assemblymember Robert Rivas (D-Hollister) on February 1, 2021, AB 361 codifies portions of Governor Gavin Newsom’s existing Ralph M. Brown Act exemptions pertaining to teleconferencing if a local agency issues an emergency finding, and reissues it every 30 days, that it is unsafe to meet in person. Specifically, the Brown Act exemptions include requirements to provide a public teleconference location, to maintain a member quorum within the agency’s jurisdiction and to provide for public comment at each teleconference location, such as a private residence. The legislation expires in December 2024. On September 16, 2021, California Governor Gavin Newsom signed AB 361 into law, effective immediately.

A local agency wishing to rely on the provisions of AB 361 must meet one of the following criteria:

1. The local agency holds a meeting during a proclaimed state of emergency, and state or local officials have imposed or recommended measures to promote social distancing; or
2. The local holds a meeting during a proclaimed state of emergency for the purpose of determining, by majority vote, whether as a result of the emergency, meeting in person would present imminent risks to the health or safety of attendees; or
3. The local agency holds a meeting during a proclaimed state of emergency and has determined, by majority vote, that, as a result of the emergency, meeting in person would present imminent risks to the health or safety of attendees.

On March 4, 2020, Governor Newsom proclaimed a State of Emergency in California due to the threat of COVID-19 and shortly thereafter issued Executive Order N-29-20 suspending certain Brown Act provisions relating to teleconferencing as public meetings began to be held online. However, this Executive Order expired on September 30, 2021, despite the State of Emergency remaining in place.

The threat that COVID-19 has presented continues to directly impact the ability of the SGVCOG to conduct Governing Board/committee meetings safely in person. Updated guidelines issued by
the Centers for Disease Control and Los Angeles Department of Public Health in July and August 2021 advise governmental entities to refrain from conducting indoor meetings and consider moving operations outdoors, where feasible, to prevent transmission. SGVCOG staff finds it has been unable to find a suitable outdoor space with the requisite audiovisual capabilities at which the monthly Committee meetings can be held safely. Similarly, an indoor space with sufficient capacity to accommodate safe social distance practices among members, staff, and the public could not be identified.

In order to continue to conduct meetings in a safe manner and to prevent unnecessary COVID-19 exposure to members, staff, and the public, staff is recommending that Water Policy Committee adopt Resolution 22-08-WC making certain findings in order to be able to continue teleconferencing for its meetings.

COMMITTEE AND WATERSHED AREA STEERING COMMITTEE (WASC) UPDATES

The following activities have happened since the last Water Committee/TAC meeting.

Regional Oversight Committee (ROC)
  • Met on Thursday, June 16th and voted to advance all nine FY 22-23 Stormwater Investment Plans (SIPs) to the Board of Supervisors.

Scoring Committee
  • Did not meet.

Rio Hondo WASC
  • Did not meet.

Upper Los Angeles River (ULAR) WASC
  • Did not meet.

Upper San Gabriel River (USGR) WASC
  • Did not meet.

UPCOMING MEETINGS

  • Regional Oversight Committee – TBD
  • Scoring Committee – TBD
  • Rio Hondo WASC – Every 3rd Tuesday of the Month, 1:00 – 3:00 pm
  • Upper Los Angeles River WASC – TBD
  • Upper San Gabriel River WASC – Every 4th Thursday of the Month, 1:00 – 3:00 pm

RE: FEDERAL AND STATE BUDGET AND LEGISLATIVE UPDATES

RECOMMENDED ACTION

For information only.

BUDGET UPDATES

2022-23 State Budget

Last year the Legislature enacted a three-year $5.2 billion investment in California water systems for safe drinking water, drought planning, water conservation, and local management of groundwater. The Governor’s January Budget proposed an additional $750 million, with a focus on drought relief and promoting water conservation. Given the intensification of the drought since January, the Governor’s May Budget Revise includes an additional $1.550 billion General Fund for drought resilience and response to help local communities and fish and wildlife avoid immediate impacts as a result of the extreme drought. The proposed funding is to accelerate the current FY 2021-22 budget year water resilience and drought response programs.

The proposed budget funding includes:

- $530 million to support water recycling and groundwater cleanup; advance drinking water and clean water projects that leverage significant federal infrastructure funds; and continue aqueduct solar pilots.
- $553 million to provide grants to urban water districts and smaller community water suppliers for drought-relief projects; support data, research, and public education campaigns; support local technical assistance emergency drinking water response, including the purchase and pre-positioning of water storage tanks; enhance water rights enforcement and modernization tools; and support food assistance programs for farmworkers impacted by drought.
- $280 million to address fish and wildlife impacts associated with drought and climate change, and to build aquatic habitat and water resilience projects to support implementation of voluntary agreements with water suppliers.
- $187 million to support agricultural water conservation practices; incentivize farmers to install more efficient irrigation equipment and provide on-farm technical assistance; provide direct relief to small farm operators; and support additional water conservation projects.

The SGVCOG will continue to monitor these funding requirements and provide updates to the Water Policy Committee on opportunities to access funding.
Biden Infrastructure Bill
The infrastructure bill is the single-largest investment in U.S. water infrastructure in the nation’s history. While the overall infrastructure bill provides a total of $7,420,806,000 to infrastructure projects ($609,441,000 to California), it will invest more than $50 billion specifically for water infrastructure programs.

- $20+ billion for safe drinking water.
- $15 billion in dedicated funding to replace lead pipes.
- $12+ billion to ensure clean water for communities.
- $1.8 billion to protect regional waters.
- $135 million for additional water improvements.

SGVCOG staff is continuing to monitor this funding and determine how funding for these programs will be distributed and available to cities.

LEGISLATIVE UPDATES

Below is an overview of federal and state legislation that the Water Committee and Water TAC are currently tracking.

S. 914 – Safe Drinking Water and Wastewater Infrastructure Act of 2021
- **Summary:** As previously reported, S. 914 reauthorizes and creates programs to support drinking water and wastewater infrastructure projects, including the Drinking Water State Revolving Loan Funds, the Clean Water State Revolving Loan Funds, the Water Infrastructure Finance and Innovation Act program, the EPA Sewer Overflow & Stormwater Reuse Municipal Grant Program and the Alternative Source Water Pilot Program. New programs include the Stormwater Infrastructure Technology Program and PFAS treatment grants.
- **Status:** Passed in the U.S. Senate on April 29 but not yet acted upon in the U.S House.

SB 37 (Cortese) – Contaminated Sites: The Dominic Cortese “Cortese List” Act of 2021
- **Summary:** Would require the State Water Resources Control Board, instead of the State Department of Health Care Services, to compile and update a list of all public drinking water wells that contain detectable levels of organic contaminants and that are subject to water analysis by local health officers. The Department of Finance on June 30, filed on behalf of the Administration an “oppose” letter because SB 37 could increase costs to clean-up contaminated sites in California.
- **Status:** Passed the Senate on June 1, 39-0; Assembly Environmental Safety & Toxic Materials Committee on June 16, 6-3; Assembly Natural Resources Committee on July 5, 7-1; and, Assembly Appropriations Committee on August 26, 12-4. At the request of the author, SB 37 was moved to the Assembly Inactive File.
- **SGVCOG Position:** Watch

SB 230 (Portantino) – Constituents of Emerging Concern Program
- **Summary:** Would require the State Water Resources Control Board (State Board) to establish, maintain, and direct a new program to assess and recommend further study on
constituents of emerging concern (CEC) in drinking water sources and treated drinking water. The state board would convene the Science Advisory Panel to review and provide recommendations on CEC for further action, among other duties. The State Board would be required to provide an annual report to the Legislature on the ongoing work conducted by the panel. The bill would authorize the State Board, upon appropriation by the Legislature, to provide financial assistance to certain public water systems upon a showing that the costs of testing drinking water in compliance with CEC monitoring requirements based on the recommendations of the panel would impose a financial hardship.

- **Status:** Passed the Senate Environmental Quality Committee on March 15, 7-0, and at the request of the Senate Appropriations Committee. SB 230 passed the Senate Floor on January 26, 2022 and was read for the first time in the Assembly. Referred to the Assembly Committee on Environmental Safety & Toxic Materials on May 5, 2022, and was passed from on June 28, 2022. It is scheduled to be heard by the Assembly Appropriations Committee on August 3, 2022.

- **SGVCOG Position:** Support

**SB 991 (Newman) – Public Contracts: Progressive Design-Build: Local Agencies**

- **Summary:** This bill would authorize (until January 1, 2029) such local agencies to use the progressive design-build process for public works projects in excess of $5,000,000. The bill defines “progressive design-build” to mean a project delivery process in which both the design and construction of a project are procured from a single entity that is selected through a qualifications-based selection at the earliest feasible stage of the project.

- **Status:** Passed in the Senate on April 9, 2022 and sent to the Assembly. On April 19, 2022, it was referred to the Assembly Committee on Local Government, where it was passed on June 15, 2022 and re-referred to the Assembly Committee on Appropriations, scheduled for August 3, 2022.

- **SGVCOG Position:** Support

**SB 1219 (Hurtado) - 21st century water laws and agencies: committee**

- **Summary:** Would require the Secretary of the Natural Resources Agency and the Secretary for Environmental Protection to convene a committee to develop and submit, on or before December 31, 2024, to the Governor and to the Legislature a strategic vision, proposed statutes, and recommendations for a modern 21st century set of water laws and regulations and state and local water agencies for the state, as provided. The bill would also require the Governor or the committee to appoint a “blue ribbon” citizen commission or taskforce, a stakeholder advisory committee and any other group that the Governor or the committee deems necessary or desirable to assist in carrying out these provisions. The bill would require all relevant state agencies, at the request of the committee, to make available staff and resources to assist in the preparation of the strategic vision and proposed statutes. The bill would authorize the committee, its members, and state agencies represented on the committee to contract for consultants to assist in the preparation of the strategic vision and proposed statutes, as specified, and would exempt those contracts from certain public contracting requirements.

- **Status:** Introduced to the Senate on February 17, 2022. Passed in the Committee on Natural Resources and Water and referred back to the committee on Environmental Quality on April 5, 2022. Senate hearing for this bill is scheduled for April 27, 2022. This bill passed
in the Senate on May 25, 2022 and read for the first time in the Assembly on May 26, 2022. The bill was referred to the Assembly Committee on Water, Parks, & Wildlife and the Assembly Committee on Environmental Safety & Toxic Materials.

• SGVCOG Position: Watch.

**AB 1195 (Garcia) – Southern Los Angeles County Regional Water Agency**

**Summary:** Would create the Southern Los Angeles County Regional Water Agency as a regional water agency serving the drinking water needs of the cities, unincorporated areas, and residents in the communities overlying the Central Basin and West Coast Basin aquifers in southern Los Angeles County. The bill would require the agency to serve the region as the leader in interagency collaboration on water resource issues and to be governed by a 5-member board of locally elected officials in the agency’s jurisdiction, each appointed by a specified state or local entity. The bill would authorize the agency to serve the water needs of its region through specified activities, including, among others, operating public water systems or other water infrastructure and integrating other water systems in the region into its operations, as prescribed. The bill would authorize the agency to finance its operations through specified means, including, among others, collecting water rates, charges, fees, or established parcel charges previously charged by a water system for which the agency has assumed control.

**Status:** Passed the Assembly on May 27, 2021, 56-19. AB 1195 was initially triple referred to three Senate policy committees. The Senate Rules Committee then rescinded one of the policy committee referrals and therefore AB 1195 is awaiting hearings before the Senate Environment Quality and Governance & Finance Committees. AB 1195 must pass the Senate policy committees no later than July 1, 2022.

• SGVCOG Position: Watch

**AB 1845 (Calderon) – Metropolitan Water District of Southern California: Alternative Project Delivery Methods**

**Summary:** Would allow the Metropolitan Water District of Southern California to use alternative project delivery methods for the design and construction of a Regional Recycling Water Program and a limited set of drought-related projects. The bill would amend the Public Contracting Code to permit Metropolitan to use Design-Build, Progressive Design Build, and Construction Manager/General Contractor. These methods have the potential to expedite construction of critical new water infrastructure projects and reduce their overall costs.

**Status:** Introduced to the Assembly on February 8, 2022. Passed the Assembly Local Government Committee on March 23, 2022 and Assembly Water, Parks & Wildlife Committee on April 26, 2022. AB 1845 was passed in the Assembly on May 25, 2022 and read in the Senate for the first time on May 26, 2022. The bill was referred to the Senate Committee on Government & Finance.

• SGVCOG Position: Support

**AB 2163 (Rubio) – San Gabriel Basin Water Quality Authority Act**

**Summary:** The existing law that established the San Gabriel Basin Water Quality Authority will sunset on July 1, 2030. This bill would extend the existing law to July 1,
2050, thereby permitting the Authority to carry out its various duties under the act until 2050.

- **Status:** Introduced in the Assembly on February 15, 2022. Passed The Assembly Environmental Safety & Toxics Material Committee on March 22, 2022 and Assembly Appropriations Committee on April 25, 2022. Passed in the Assembly on May 9, sent to the Senate. The bill was referred to the Committee on Environmental Quality on May 18, 2022, and passed on June 1, 2022 and re-referred to the Senate Committee on Appropriations.

- **SGVCOG Position:** Support.

**AB 2387 (E. Garcia & Mullin) – Safe Drinking Water, Wildfire Prevention, Drought Preparation, Flood Protection, Extreme Heat Mitigation, and Workforce Development Bond Act of 2022**

- **Summary:** This bill would enact the Safe Drinking Water, Wildfire Prevention, Drought Preparation, Flood Protection, Extreme Heat Mitigation, and Workforce Development Bond Act of 2022, which, if approved by the voters, would authorize the issuance of bonds in the amount of $7,430,000,000 pursuant to the State General Obligation Bond Law to finance projects for safe drinking water, wildfire prevention, drought preparation, flood protection, extreme heat mitigation, and workforce development programs.

- **Status:** Introduced in the Assembly on February 17, 2022. Passed Assembly Water, Parks & Wildlife Committee on April 4, 2022 and Assembly Natural Resources Committee on April 25, 2022. Sent to the Assembly Appropriations Committee, it is currently held under submission.

- **SGVCOG Position:** Watch.

RE: FEDERAL AND STATE WATER FUNDING UPDATES

BACKGROUND

SGVCOG staff is monitoring various funding opportunities that municipalities in the San Gabriel Valley may be eligible for and/or interested in pursuing. Appendix A links to a spreadsheet of known grants and other funding opportunities related to water. This form includes the funding category and title, description, amount of funding available, and application information.

Upcoming funding deadlines include:

- US Department of Interior, Bureau of Reclamation – WaterSmart: Desalination Research and Development (July 12, 2022)
- US Department of Interior, Bureau of Reclamation – WaterSmart: Water and Energy Efficiency Grant (July 28, 2022)
- US Department of Interior, Bureau of Reclamation – WaterSmart: Water Conservation Field Services Program (July 29, 2022)
- California Department of Water Resources – Integrated Regional Water Management Grant Program (August 19, 2022)

RE:   LITIGATION UPDATES

RECOMMENDED ACTION

For information only.

BACKGROUND & DISCUSSION

On January 4, 2021, the Court of Appeals affirmed the Commission's decision that the trash receptacle requirements of the 2001 MS4 Permit are unfunded mandates for which the County and Cities are entitled to reimbursement (Attachment A). No appeal was taken from this ruling, so the case is now considered concluded. Through this litigation it was established that the MS4 Permits can contain reimbursable state mandates and that stormwater permits can contain state mandates—as opposed to federal mandates. Additionally, it was established that those mandates are reimbursable programs within the meaning of Articles XIII B, section 6 of the California Constitution.

The State’s Legislative Analyst’s Office (LAO) released a report in February 2022 (Attachment B) outlining how this ruling will be addressed. In the report, the LAO confirmed that the State has exhausted its legal options for challenging this particular mandate decision. The Governor’s budget proposal includes $18.4 million in one-time General Funds to reimburse certain local governments in Los Angeles County for costs related to the Municipal Stormwater and Urban Runoff Discharges mandate. Specifically, the proposal would reimburse eligible local governments for the costs they incurred installing and maintaining trash receptacles at transit stops between 2002 and 2012 pursuant to regulatory stormwater permit requirements that the Commission on State Mandates found to be a state-reimbursable mandate. Only certain portions of the cities and county were subject to the 2001 trash receptacle permit requirement, however, and only those cities and counties would be eligible for reimbursement. The LAO recommended that the Legislature approve the proposal and fund this mandate, consistent with state law. It also confirmed that funding this mandate does not have out-year fiscal implications for the State.

The test claims arising from the 2012 Municipal Separate Stormwater Sewer System (MS4) Permit are still pending before the Commission. They have been continually delayed, but it appears that the Commission is starting to take up some of the other stormwater test claims that were filed before the Los Angeles County claims. The Los Angeles cities and County claims are tentatively set for hearing on September 23, 2022.

The 2021 MS4 Permit was adopted on July 23, 2021. Any permittee that intends to file a test claim over obligations imposed by that Permit must do so within 12 months of the Permit’s effective date. One issue that may arise with any test claim filed with respect to the new Permit is the impact of the adoption of SB 231 (Hertzberg) in 2017. SB 231 added a definition for "sewer" to the
Proposition 218 Omnibus Implementation Act, which is significant because the election requirements are on fees for services other than water, sewer, and trash services. SB 231 authorizes counties, cities, and local water agencies to finance storm water projects in the same manner as other public works projects under Proposition 218.
