

NEIGHBORHOOD COYOTE PROGRAM

July 2023

MONTHLY
REPORT

CITY OF ALHAMBRA

MONTH AT GLANCE

During the month of July, the Neighborhood Coyote Program continued to document reports and share relevant information to residents who reported coyote activity in their neighborhoods.

It is not uncommon for coyotes to be sighted throughout the day as they may be seeking food opportunities or transitioning between different neighboring areas. Coyotes occasionally appear in residential yards. When encountering such a situation and determining that the coyote is passing through without apparent interest, it is advisable to refrain from intervention and stay indoors. However, if a coyote shows attraction to something in your yard, it is crucial to deter it through appropriate hazing methods. Allowing the coyote to linger without discouragement may lead to recurrent sightings. Ensuring your yard does not have any attractants will discourage the coyote from returning to your property.

REPORT TOTALS

3 reports	LEVEL 1 Coyote heard and/or seen; Coyote resting in public space
7 reports	LEVEL 2 Coyote seen resting in public area with humans present; Coyote entered yard or home with or without pets present
