

# NEIGHBORHOOD COYOTE PROGRAM

January 2023

---

MONTHLY  
REPORT

**CITY OF SAN MARINO**

---

## MONTH AT GLANCE

During the month of January, the Neighborhood Coyote Program continued to document reports and share relevant information with residents who reported coyote activity in their neighborhoods.

As January comes to a close, coyote breeding season is just around the corner. During this season (February through March), coyote presence in urban neighborhoods may increase as coyotes search for food, shelter, and mates. To prevent coyotes from lingering in your neighborhood, continue to remove all attractants. If coyotes are still living within close proximity to your home, consider implementing deterrents. For more information on attractants and deterrents, view our resources at [sgvkog.org/coyotematerials](http://sgvkog.org/coyotematerials).

# NEIGHBORHOOD COYOTE PROGRAM

The Neighborhood Coyote Program serves as an avenue to address, educate, and report coyote interactions as well as safety issues caused by coyotes within the San Gabriel Valley. Through education and resourcing, we want to ensure the safety of residents and pets. The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety.

The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety. The Neighborhood Coyote Program provides the following services:
