Affordable Housing Funds
Our approach to Fund Design is to build the Fund from the “ground up.”

Starting with local vision, knowledge and commitment to solving complex housing challenges

Adding financial and market acumen of LISC in solutions-oriented design

Building products that will be useful in a local market context

A Housing Fund that serves unmet needs of the local communities, the market, and of funders through collective impact.
Why a fund?

A fund exists to do something that doesn’t fit the conventional financing toolbox, or that allows us to stretch the existing toolbox (i.e. blended interest rate, higher LTV).

A well-designed fund is very narrowly focused to serve a definable problem in the local market and structured to address a particular market need.

A fund can have the most impact when it takes a cross-sector approach, bringing together corporate, philanthropic, nonprofit and government.
By adding soft debt and soft equity to your capital stack, your Housing Fund can potentially achieve deeper affordability and address unmet need in the market.
Examples
DC Preservation Fund

**WHAT?**
The fund uses a $9.5M government grant to provide flexible and low-cost predevelopment, acquisition, and critical repair financing for developers and tenant associations of eligible properties in DC.

**WHY?**
LISC was selected by DC’s Dept of Housing and Community Development to manage a fund to help preserve the affordability of DC’s existing multi-family housing stock.

**AND SO?**
LISC has deployed $34 million over the 12 months since it received its initial Preservation Fund allocation, preserving nearly 500 affordable homes for families living in Wards 1, 3, 4, 7, and 8.
