NEIGHBORHOOD COYOTE PROGRAM REPORT

Prepared by Natalya Romo, Management Aide

SGVCOG

San Gabriel Valley Council of Governments

NEIGHBORHOOD COYOTE PROGRAM

The Neighborhood Coyote Program serves as an avenue to address, educate, and report coyote interactions as well as safety issues caused by coyotes within the San Gabriel Valley. Through education and resourcing, we want to ensure the safety of residents and pets. The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety.

The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety.

The Neighborhood Coyote Program provides the following services:

- Hotline Access
- Reporting Tools
- Referrals to Resources
- Pet Safety Planning
- Crisis Intervention
- Workshops and Training

MONTH AT GLANCE

In the month of April, we continued to experience the effects of COVID-19 nationally and locally. The Neighborhood Coyote Program continues to document reports and share necessary information to those who have reported coyote activity in their neighborhoods. Wednesday, April 22nd we shared the Pasadena Humane Society & SPCA's Coyote Safety Live Webinar. The webinar was very informative and included 228 live attendees and 384 total registrants. All registrants were sent a link to the recorded webinar after the webinar ended. We have continued to work with external stakeholders to ensure information is uniformed when delivered to your community members. We look forward to our upcoming coyote informational webinar in the month of May.

You may now schedule a webinar specific to your city.

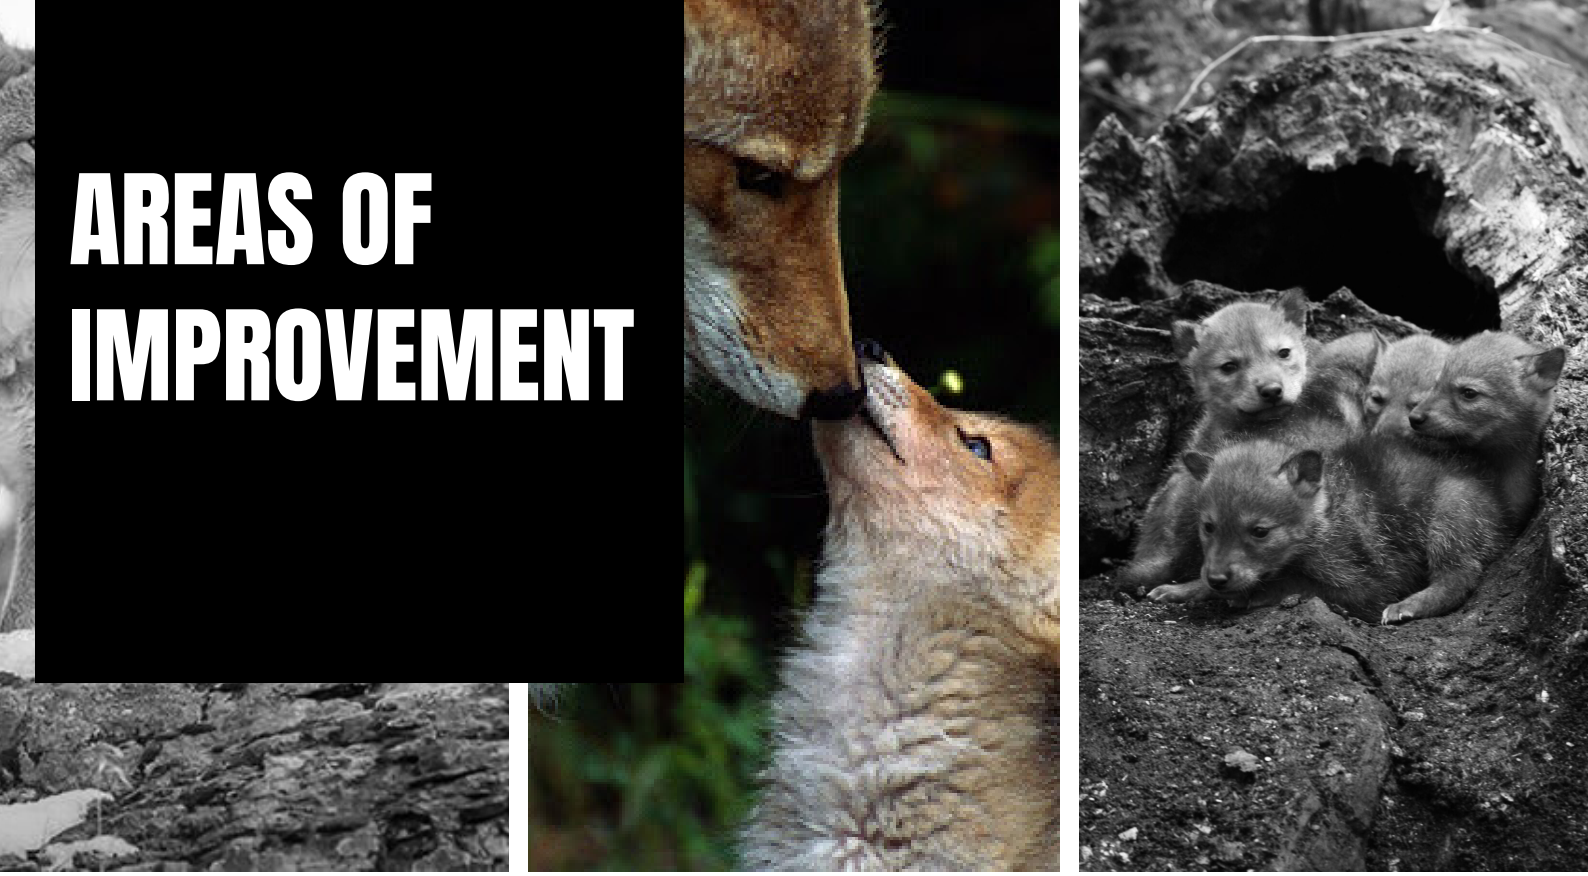

MONTHLY TOTALS AND RESPONSE LEVELS

Within the City of Temple City, there was **1** report of coyote interactions for the month of April. The Neighborhood Coyote Program responded to the report. The Program made contact with the reporter by phone. The report was classified as **Response Level 1**. Response Level 1 includes the hearing or sighting of coyotes or a coyotes resting in public space. No hazing techniques were used. The report was made to the UCANR Coyote Cacher online form. There was a total of **1** coyote seen in the City of of Temple City in the month of April.

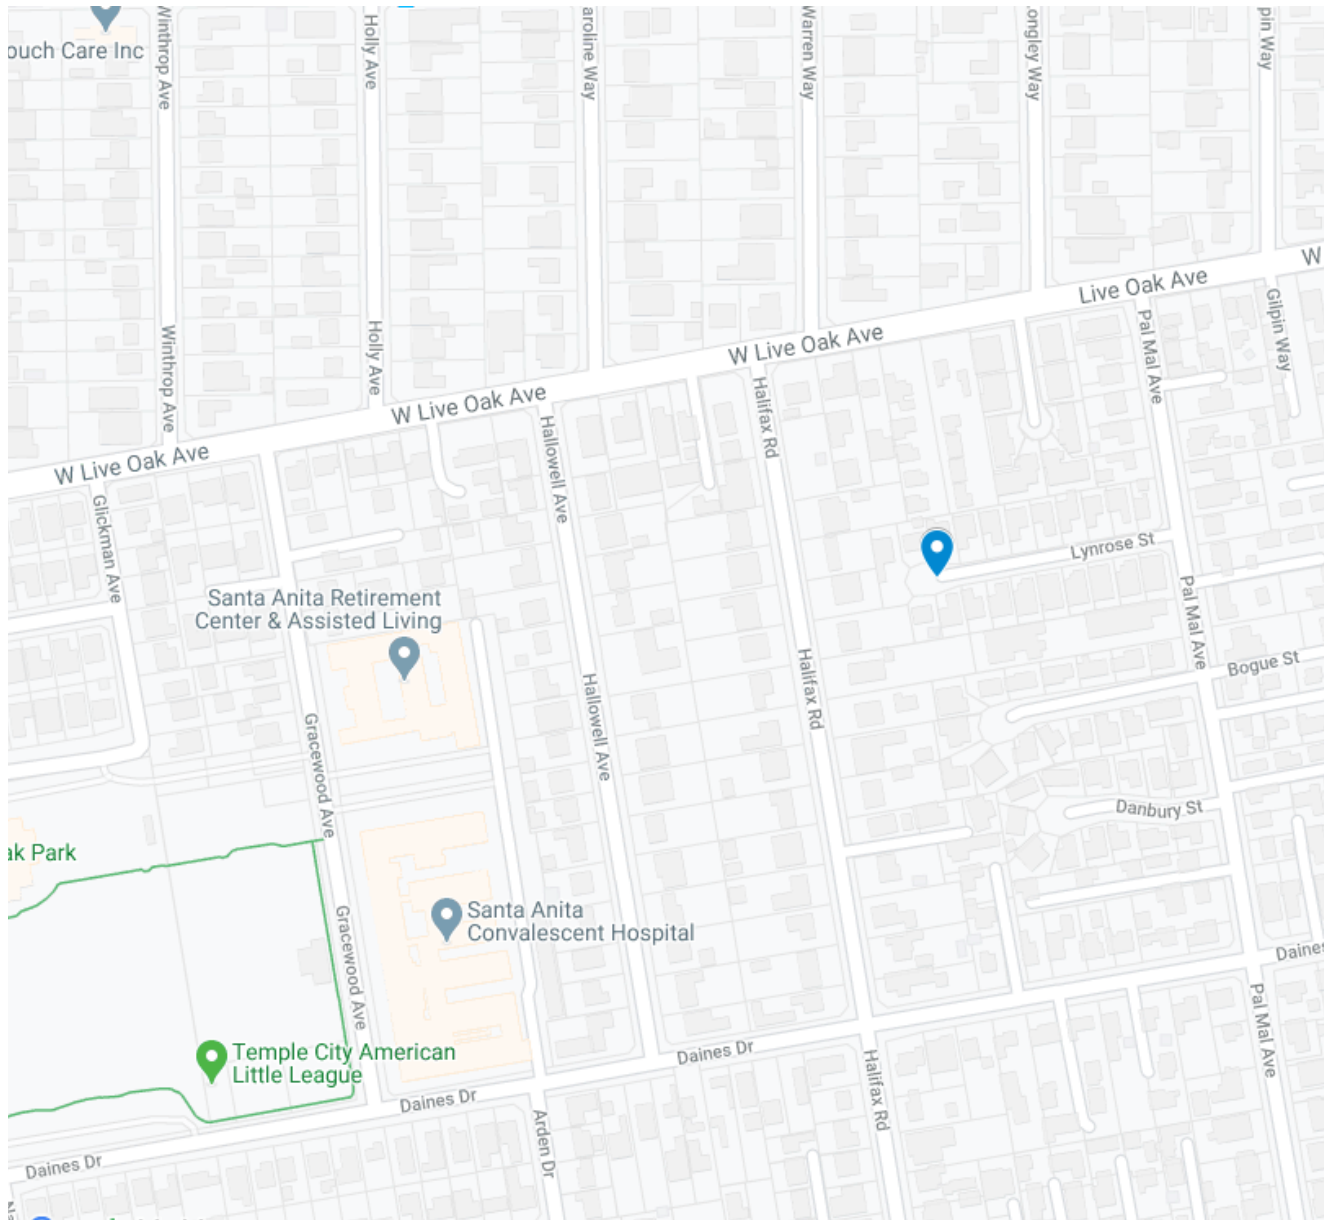

Please find detailed data in attached document.

AREAS OF IMPROVEMENT

The prior reports have proven It may be beneficial to focus attention on providing information to residents about the Neighborhood Coyote Program, ensuring referrals from City Departments, as well as identifying opportunities to education to residents about normal coyote behaviors, hazing techniques, and coyote attractants.
