Pomona
Rosemead
San Gabriel
San Gabriel Valley Mosquito and Vector Control District
South Pasadena

Thank you for participating in the Energy, Environment & Natural Resources Committee meeting. The Committee encourages public participation and invites you to share your views on agenda items.

MEETINGS: ***Regular Meetings of the Energy, Environment & Natural Resources (EENR) Committee are held on the first Wednesday of each month at 10:30 AM at the SGVCOG Monrovia Office (1333 South Mayflower Avenue, Suite 360, Monrovia, CA 91016).*** The EENR Committee agenda packet is available at the SGVCOG Monrovia Office (*1333 South Mayflower Avenue, Suite 360, Monrovia, CA 91016)*, and on the website, www.sgvcog.org. A copy of the agenda is also viewable to the public at the entrance of the SGVCOG Monrovia Office Building. Copies are available via email upon request (sgv@sgvcog.org). Documents distributed to a majority of the Committee after the posting will be available for review in the SGVCOG office and on the SGVCOG website. Your attendance at this public meeting may result in the recording of your voice.

PUBLIC PARTICIPATION: Your participation is welcomed and invited at all EENR Committee meetings. Time is reserved at each regular meeting for those who wish to address the Committee. SGVCOG requests that those addressing the Committee refrain from making personal, slanderous, profane or disruptive remarks.

TO ADDRESS THE COMMITTEE: All public comments will be taken during the public comment portion of the agenda. At a regular meeting, the public may comment on any agenda item as well as on any matter within the subject matter jurisdiction of the SGVCOG that is not listed on the agenda during the public comment period at the beginning of the agenda. At a special meeting, the public may only comment on items that are on the agenda. Members of the public are requested, but not required, to state their name prior to speaking. Comments are limited to a maximum of three minutes per person. The Chair may impose additional time limits if many members of the public seek to provide public comment. Except in limited situations, the Committee may not act on items not appearing on the agenda and/or discuss them at length. If you would like to provide a public comment during a Committee meeting, please see "Instructions for Public Comments" below.

AGENDA ITEMS: The Agenda contains the regular order of business of the EENR Committee. Items on the Agenda have generally been reviewed and investigated by the staff in advance of the meeting so that the EENR Committee can be fully informed about a matter before making its decision.

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact the SGVCOG office at (626) 457-1800 or via email to sgv@sgvcog.org. Notification 48 hours prior to the meeting will enable the SGVCOG to make reasonable arrangement to ensure accessibility to this meeting.

Docusign Envelope ID: 8AB33A65-9518-8F5F-81A4-68B387D93086

CONSENT CALENDAR: Items listed on the Consent Calendar are routine and will be acted upon by one motion. There will be no separate discussion on these matters unless a Committee member requests. In this event, the item will be removed from the Consent Calendar and considered after the Consent Calendar.

TELECONFERENCE LOCATIONS: State law allows Committee Members to teleconference from remote locations if certain conditions are met, including listing the teleconference locations in the agenda. The following locations are hereby noticed as teleconference locations, which are accessible to the public for the purpose of observing this meeting and/or addressing the EENR Committee.

City of Covina 125 E. College Street Covina, CA 91723	**City of Rosemead** 3109 Prospect Avenue Rosemead, CA 91770

Instructions for Public Comments: For those wishing to make public comments on agenda and non-agenda items, but within the SGVCOG's subject matter jurisdiction, you may submit written comments via email or provide a verbal comment.

- Written Comments (Email): If you wish to submit written public comments to be distributed to the Committee Members at the meeting, please submit these materials via email to Mackenzie Bolger at mbolger@sgvcog.org at least 1 hour prior to the scheduled meeting time. Please indicate in the "Subject" line of the email "FOR PUBLIC COMMENT" and the agenda item number to which the public comment is addressed. Written public comments may include, but are not limited to letters, reports, and presentations.
- Verbal Comments (In Person): If you would like to make a public comment at the EENR Committee meeting location, please fill out a public comment card. Comment cards will be made available to you by staff at the entrance to the meeting room. If you are attending the meeting at a noticed teleconference location and would like to make a public comment, please raise your hand when the item upon which you wish to speak comes up on the agenda.
- Verbal Comments (Zoom): Through Zoom, you may provide a verbal comment by using the web interface "Raise Hand" feature when the agenda item upon which you wish to speak is to be considered. You will then be called upon to provide your verbal comments.

For questions related to accessing the available teleconference locations, please contact Mackenzie Bolger at mbolger@sgvcog.org or (626) 214-1316.

Docusign Envelope ID: 8AB33A65-9518-8F5F-81A4-68B387D93086

San Gabriel Valley Council of Governments
Regular Meeting of the Energy, Environment & Natural Resources Committee
Wednesday, November 4, 2026 – 10:30 AM

PRELIMINARY BUSINESS **5 MINUTES**

1. Call to Order
2. Roll Call
3. Public Comment
4. Changes to the Agenda Order

CONSENT CALENDAR **2 MINUTES**

5. September EENR Committee Meeting Minutes – **Page 1**
   Recommended Action: Review and approve.
6. FY 2027-2028 EENR Committee Legislative Platform – **Page 3**
   Recommended Action: Recommend the Governing Board adopt a resolution approving the FY 2027-2028 EENR Committee Legislative Platform.

PRESENTATION ITEMS **40 MINUTES**

7. State Legislative Update – Carly Shelby and Elisa Arcidiano, Townsend Public Affairs – **Page 7**
   Recommended Action: For information only.
8. San Gabriel Valley Conservation Corps Overview – Norma Quiñones, Executive Director, San Gabriel Valley Conservation Corps – **Page 11**
   Recommended Action: For information only.

UPDATE ITEMS **5 MINUTES**

9. SGVCOG Water Working Group

LIAISON REPORTS **10 MINUTES**

10. Clean Power Alliance
11. Los Angeles County Sanitation Districts
12. San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy
13. San Gabriel Valley Mosquito and Vector Control District
14. Southern California Edison
15. Southern California Gas Company
16. South Coast Air Quality Management District (AQMD)

STAFF ANNOUNCEMENTS **2 MINUTES**

Unapproved SGVCOG Energy, Environment & Natural Resources Committee Meeting Minutes
Date: September 2, 2026
Time: 10:30 AM
Location: 1333 S. Mayflower Ave., Monrovia, CA 91016

PRELIMINARY BUSINESS

1. Call to Order
Chair J. Stark called the meeting to order at 10:30 AM.

2. Roll Call

Members Present
J. Stark, Claremont
M. Syzmkowski, Bradbury
M. Flores, Covina,
M. Allawos, Glendora
S. Fossan, La Cañada Flintridge
J. Guess, Pasadena
M. Clark, Rosemead
M. Cacciotti, South Pasadena
J. Wall Doornik, SGVMVCD

Absent
Duarte
Monrovia
Pomona
San Gabriel

SGVCOG Staff:
M. Daudt, General Counsel
M. Bolger; V. Urenia; K. Lai; Ricky Choi; A. Moreno; A. Gutierrez; Z. Aga; M. Rosen, SGVCOG Staff

Guests
C. Lopez, SCAQMD
E. Figueroa, SoCalGas

3. Public Comment
There was no public comment.

4. Changes to the Agenda Order
There were no changes to the agenda order.

CONSENT CALENDAR

5. EENR Committee Meeting Minutes – 6/3/2026
Action: Approve

There was a motion to approve the consent calendar. **(M/S: M. Allawos/ S. Fossan)**
[MOTION PASSED]

Docusign Envelope ID: 8AB33A65-9518-8F5F-81A4-68B387D93086

AYES:	Bradbury, Claremont, Covina, Glendora, La Canada Flintridge, Pasadena, Rosemead, SGVMVCD, South Pasadena
NOES:	
ABSTAIN:	
ABSENT:	Duarte, Monrovia, Pomona, San Gabriel

PRESENTATION ITEMS

6. Sustainability Programs Summer Activities Update – Mackenzie Bolger, Acting Sustainability Manager, SGVCOG
Action: For Information only.
M. Bolger presented on this item.

7. Advanced Clean Fleets (ACF) Guidance – Adil Mahmood, Staff Air Pollution Specialist, Compliance Assistance and Outreach Branch, California Air Resources Board
Action: For Information only.
A. Mahmood presented on this item.

UPDATE ITEMS

8. Water Working Group Chair Updates

9. Wildfire Recovery Reform Update
E. Arcidiacono provided an update.

LIAISON REPORTS

10. Clean Power Alliance

11. Los Angeles County Sanitation Districts
E. Gasco reported on this item

12. San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy

13. San Gabriel Valley Mosquito and Vector Control District

14. Southern California Edison

15. Southern California Gas Company
E. Figueroa provided an update.

16. South Coast Air Quality Management District (AQMD)
M. Cacciotti provided an update.

ANNOUNCEMENTS

Next EENR Committee Meeting – Wednesday, November 4th at 10:30 AM

ADJOURN

Chair J. Stark adjourned the meeting at 11:45 AM.

Docusign Envelope ID: 8AB33A65-9518-8F5F-81A4-68B387D93086

REPORT

DATE: November 4, 2026

TO: Energy, Environment & Natural Resources Committee

FROM: Marisa Creter, Executive Director

RE: FY 2027-2028 ENERGY, ENVIRONMENT & NATURAL RESOURCES COMMITTEE LEGISLATIVE PLATFORM

RECOMMENDED ACTION

Recommend the Governing Board adopt a resolution approving the FY 2027-2028 Energy, Environment & Natural Resources Committee Legislative Platform.

BACKGROUND

In 2024, the San Gabriel Valley Council of Governments (SGVCOG) simplified and reorganized its Legislative Platform into a set of guiding principles aligned with the two-year state legislative cycle. The biennial Platform establishes the SGVCOG's overarching legislative priorities and provides direction to staff on issues to monitor and advance throughout each legislative session. The priorities are informed by feedback and input from the SGVCOG Policy Committees and address regulatory, funding, and structural challenges affecting the San Gabriel Valley and its member agencies.

The FY 2027–2028 Legislative Platform maintains this framework of broad policy positions while allowing flexibility to respond to emerging legislative and regulatory issues. Staff will continue to monitor state and federal legislation and bring relevant proposals to the appropriate Policy Committee for review and recommendation to the Governing Board. The Governing Board may then approve or amend a recommended position and authorize the Executive Director to advocate accordingly through meetings with legislators and their staff, written correspondence, testimony, and other appropriate means.

When responding to legislative proposals, staff will prepare correspondence that clearly articulates the SGVCOG's position. Depending on the circumstances, the SGVCOG may take one of the following positions: support, support if amended, concerns, oppose, oppose unless amended, neutral, or watch.

Purpose Statement
The FY 2027-2028 Legislative Platform establishes the framework for the SGVCOG's Legislative Program. Adopted biennially to align with the two-year state legislative cycle, the Platform serves as a reference for legislative positions and priorities, guiding staff's advocacy efforts throughout the year. It reflects the shared values and goals of the SGVCOG and its member agencies and provides a foundation for coordinated strategic advocacy at the state and federal levels.

Docusign Envelope ID: 8AB33A65-9518-8F5F-81A4-68B387D93086

How to Use the Legislative Platform
The Legislative Platform outlines the SGVCOG's key legislative priorities and objectives, and guides advocacy efforts at both the state and federal levels. It consists of broad policy statements addressing issues that affect the San Gabriel Valley and provides direction for evaluating legislative proposals and determining appropriate advocacy positions.

The Platform is organized by the Policy Committee with jurisdiction over each subject area, while the Executive Committee oversees policy areas that do not fall within the purview of an existing Policy Committee. Each Policy Committee will review and recommend its respective section for consideration and approval by the Governing Board, ensuring a coordinated legislative framework that reflects the distinct priorities of each policy area.

The Energy, Environment & Natural Resources Committee Legislative Platform is presented below, with proposed revisions reflected in the text and new language italicized. The FY 2027-2028 Platform retains the core topics and policy areas previously within the Committee's jurisdiction.

FY 2027-2028 Legislative Platform

Energy, Environment, & Natural Resources Committee

SGVCOG supports ~~policies that promote~~ sustainable policies ~~to~~ *that* improve air quality, advance renewable energy, ensure water security, manage waste responsibly, reduce wildfire risk, and preserve open spaces—building an affordable, resilient and healthy future for the San Gabriel Valley.

Air Quality

~~SGVCOG supports enhanced local authority regarding air quality standards and improvements.~~ *SGVCOG supports policies, funding, and appropriate local authority to reduce harmful emissions and improve air quality, particularly in communities disproportionately affected by freight corridors, industrial activity, and other pollution sources.*

Energy Funding, Regulation & Incentives

SGVCOG supports the promotion of energy efficiency and conservation, renewable energy expansion, and energy affordability. The SGVCOG seeks to advocate for a balanced and sustainable mix of energy sources that provide reliable and environmentally responsible electricity at competitive rates.

SGVCOG supports timely and reliable utility service, transparent connection schedules and project prioritization, and infrastructure investments that accommodate housing, transportation, and economic development needs while protecting affordability for existing customers.

SGVCOG supports policies addressing the energy and infrastructure impacts of artificial intelligence and data centers that preserve local siting authority, require disclosure of projected resource demands, and ensure developers and operators bear costs attributable to their projects.

Docusign Envelope ID: 8AB33A65-9518-8F5F-81A4-68B387D93086

Such policies should protect other ratepayers from cost shifting, address cumulative impacts, and preserve local agencies' ability to secure enforceable infrastructure improvements and community benefits.

Waste Management

SGVCOG supports sustainable and affordable waste management ~~that~~ *to reduce environmental harm and safeguard public health* ~~contributes to a healthier environment~~ for current and future generations.

Water Management

SGVCOG supports state, federal, and local legislative or regulatory solutions in support of water conservation, security, affordability, quality and MS4 permit compliance.

Wildfire Preparedness

SGVCOG supports the reduction of wildfire risk, promotion of wildfire prevention planning, and identification of funding for wildfire programs in the San Gabriel Valley. *SGVCOG supports the reduction of wildfire risk, promotion of wildfire prevention planning, and identification of funding for wildfire programs in the San Gabriel Valley. SGVCOG supports timely funding for emergency response, debris removal, watershed restoration, and long-term recovery, including reimbursement of local government costs and assistance with safe rebuilding. SGVCOG supports policies that improve insurance availability and affordability and recognize investments in wildfire risk reduction.*

Wildlife & Open Space

SGVCOG supports the identification, acquisition, creation, or preservation of and access to open space in the San Gabriel Valley. *SGVCOG supports the identification, acquisition, creation, or preservation of and access to open space in the San Gabriel Valley. SGVCOG supports sustained funding for maintenance, habitat restoration, wildlife connectivity, urban greening, and equitable access to parks and trails, including projects that reduce extreme heat and strengthen community resilience.*

RE: STATE LEGISLATIVE UPDATE

RECOMMENDED ACTION

For information only.

SUMMARY

The 2026 Legislative Session addressed two related policy challenges: meeting the electricity demands of California's rapidly expanding data center sector while protecting households and businesses from cost increases, and determining how utility-caused wildfires are financed and compensated. The Legislature enacted a package of bills addressing data centers and utility oversight, while a negotiated measure to reform wildfire liability, SB 492, did not complete the legislative process.

Wildfire liability remained a central issue following the January 2025 Eaton Fire in Altadena, which officials attributed to electrical arcing on an out-of-service Southern California Edison transmission line. More than 11,000 households have sued the utility in connection with the fire. In 2026, the Governor proposed limiting utility liability for wildfire damages, including compensation for pain and suffering, insurer reimbursement claims, and local government recovery of costs for damaged infrastructure. Lawmakers rejected key elements of the proposal. Although negotiations produced revised language in SB 492, the measure did not advance to completion, and the final negotiated language did not include provisions shifting wildfire-related costs to local agencies.

KEY LEGISLATION

The measures below are the 2026 bills most relevant to local governments in the areas of data centers, utility oversight, and wildfire liability. Each of the data center and utility bills has been chaptered; most take effect January 1, 2027. The wildfire summary reflects the final negotiated language of SB 492 and its status at the close of the session.

Data Center Legislation

AB 1577 (Bauer-Kahan) – Data Centers: Reporting
Requires data center owners and operators to report to the California Energy Commission, including metrics such as power usage effectiveness, water usage effectiveness, total water consumption, and fuel consumed by onsite generators or fuel-based systems.

Docusign Envelope ID: 8AB33A65-9518-8F5F-81A4-68B387D93086

Requires the same information to be shared with local agencies when a data center applies for a discretionary permit, entitlement, or land use authorization required for its construction or operation.
Status: Chaptered

AB 2469 (Papan) – Data Centers: Water Use Disclosures
Restricts cities and counties from approving permits for new or expanded data centers that would increase maximum peak water use unless specified conditions are met, including submission of required water-related information and agreement to pay for necessary water infrastructure costs. Adds a water scarcity plan and a water supply assessment to the required application materials.
Status: Chaptered

AB 2619 (Papan) – Water Resources: Data Centers
Requires data center developers to provide information on water use to water suppliers and local governments before a business license is issued and upon renewal of the license.
Status: Chaptered

SB 886 (Padilla) – California Technology Innovation and Ratepayer Protection Act
Requires the California Public Utilities Commission (CPUC), by January 1, 2028, to establish an electrical tariff (rate structure) governing how participating customer facilities interconnect with electrical transmission, distribution, and generation services. The tariff must include eligibility criteria for facilities with high energy demand. Tariff design must also prevent cost shifts to other customers.
Status: Chaptered

SB 887 (Padilla) – CEQA: Environmental Leadership Development Projects: Data Centers
Defines a data center as "a large-scale energy consumer that requires uninterruptible electricity to serve a facility housing servers and related data center equipment and software for the processing, storage, and distribution of data." Clarifies that the development and operation of data centers are not exempt from CEQA. The bill also allows the Governor to certify qualifying data center and geothermal projects as environmental leadership development projects if they meet specified conditions.
Status: Chaptered

SB 1168 (McNerney) – Data Centers: Rate Structures
Requires the CPUC to assess opportunities for rate structures to address specified rate impacts associated with data centers, with the goal of protecting residential ratepayers.
Status: Chaptered

Energy and Utilities Legislation

AB 1715 (Schiavo) – Public Utilities: Reporting
Requires electrical and gas corporations to report quarterly on certain taxpayer funding of $1 million or more, to disclose related funding when seeking ratepayer funding, and to pass financial benefits from that funding on to ratepayers. Authorizes the CPUC to enforce the reporting requirements with penalties, requires annual reports to the Legislature beginning in 2028, and repeals the provisions in 2037.

Docusign Envelope ID: 8AB33A65-9518-8F5F-81A4-68B387D93086

Status: Chaptered

AB 2065 (Petrie-Norris) – Rates: Prohibited Cost Recovery
Closes a gap that lets utilities collect from ratepayers costs that the CPUC has already ruled they cannot recover. Requires the CPUC to find "prohibited cost recovery" when a utility places nonrecoverable costs into an approved account, such as a memorandum or balancing account. Requires the CPUC to disallow those costs and impose financial penalties, and requires affected utilities to file annual reports on violations identified and corrective actions taken.
Status: Chaptered

SB 327 (McNerney) – Rates: Political Influence Activities
Prohibits electrical and gas corporations from recovering from ratepayers the costs of activities opposing municipalization of utility service. Expands the Public Advocate's authority to obtain information and review utility records, and aligns the Public Advocate's investigative powers with those of the CPUC.
Status: Chaptered

SB 1196 (McNerney) – Small Energization Projects
Defines "small energization projects" to include projects that do not require distribution or service line extensions and whose only upgrade is a new electric meter required by an electrical corporation or local jurisdiction. Requires the CPUC to set timelines by September 30, 2027, for electrical corporations to respond to and process requests for energization of small projects, and to require compliance with certain related requirements.
Status: Chaptered

Wildfire Legislation

SB 492 (Becker and Petrie-Norris) – 2026 Wildfire Package
Bars utility executive bonuses in any year in which the company causes a significant wildfire; keeps the Wildfire Fund in place; creates a Fast Pay program for survivors without cutting off their legal rights; and blocks hedge fund profiteering on wildfire claims. The final language does not include any local agency cost-shifting provisions.
Status: Did not pass. The Assembly declined to take up the bill on September 1, the last day of session, and it never received a floor vote.

SB 492 followed an early-August proposal from the Governor that would have limited the ability of cities and other public entities to recoup losses from utility-caused wildfires. The Assembly and Senate each released their own proposals rejecting local cost shifts, and SB 492 emerged as the negotiated version without them. Because the bill did not pass, existing rules remain in place, including survivors' ability to sue utilities and local governments' ability to recover their own losses. Assembly leaders have indicated they will hold hearings this fall, and the Governor has said he intends to keep pursuing changes.

DISCUSSION

The Legislature chose to address data center growth and utility accountability through reporting, rate design, and oversight, leaving most of the hard decisions to regulators. Chaptered bills will be

Docusign Envelope ID: 8AB33A65-9518-8F5F-81A4-68B387D93086

implemented by the CPUC and the Energy Commission. The CPUC must develop the data center tariffs under SB 886, assess rate structures under SB 1168, enforce the new reporting and cost-recovery requirements under AB 1715 and AB 2065, and set small-project energization timelines by September 30, 2027 under SB 1196. Cities must consider how to use the new data center information at permitting, how to apply AB 2469's water conditions and SB 887's CEQA requirements to local approvals, and whether to participate in the CPUC proceedings that will shape ratepayer costs.

Regarding wildfire, the Legislature chose not to resolve utility liability, and the issue remains open. The wildfire liability debate is expected to resume in 2027 with a new Governor and Administration. The central issue for local governments is likely to remain whether any final agreement limits the ability of cities to recoup their own losses from utility-caused fires. The negotiated 2026 language omitted local cost shifts, and that is the baseline cities can point to heading into those negotiations.

Townsend Public Affairs will track the CPUC and Energy Commission implementation, the fall Assembly hearings on wildfire liability, and any proposals that would affect local recovery rights, and will report back to the Committee.

This staff report was prepared by Elisa Arcidiano, Deputy Director at Townsend Public Affairs.

RE: SAN GABRIEL VALLEY CONSERVATION CORPS OVERVIEW

RECOMMENDED ACTION

For information only.

BACKGROUND

The San Gabriel Valley Conservation Corps (SGVCC) is a nonprofit organization established in 2003 that empowers underserved young adults throughout San Gabriel and Pomona Valleys through workforce development, career counseling, education, environmental service, and leadership opportunities. Through hands-on, team-based projects, Corpsmembers develop skills in areas such as environmental conservation, construction, urban greening, recycling, and community improvement, while also receiving mentorship and career development support.

SGVCC programs and projects serve communities throughout the greater San Gabriel and Pomona Valleys, with Corpsmembers dispatched throughout the region. In addition to workforce and educational services, SGVCC provides environmental and community improvement services to public agencies and other community partners. These services include:

- Water conservation projects
- Wildlife habitat enhancement
- Urban forestry
- Trail maintenance and construction
- Erosion control & slope stabilization
- Event support & logistics
- Community garden development

Norma Quiñones, Executive Director of the SGVCC, will provide a presentation on this item.
