

## SGVCOG MSP Workshop Q&A

10/3/24

**Q:** If awarded, can we split the award into multiple years/phase the project?

**A:** Yes, you may apply for a phased project across several years.

**Q:** What if a proposed project is eligible under both the Active Transportation and First-Last Mile & Complete Streets categories?

**A:** Please check “Both” in the application if your project is eligible for both categories. This will allow us to find the best funding option for you and potentially us a mix of both (if awarded).

**Q:** Would an improvement that is included in a specific plan be sufficient if it is not included in the CIP?

**A:** Yes, please note if the project is included in a specific plan. It may not gain you the full 5 points under the CIP question, but it will benefit you in other scoring areas such as community outreach.

**Q:** Are we limited to submitting a project in the interest form? Is an agency limited to submitting one application or can they submit several applications/projects?

**A:** You are not limited to the projects you submitted in the pre-application form. And you may submit multiple applications. Please be aware that it is unlikely we will award multiple projects from any one applicant. Please be sure to note under the prioritization question which project has the greatest need or is the higher priority.

Please contact Steph Wong with any questions ([swong@sgvcog.org](mailto:swong@sgvcog.org)).
